

## BOB BURMAN KILLED IN CORONA RACE; TWO OTHERS MEET DEATH

**Noted Racer and His Mechanician are Killed When Their Car Overturns. The Course Guard is Dead.**

CORONA, Calif., April 8.—Bob Burman of Detroit, the noted automobile racer, and his mechanician, Eric Shroeder of Chicago and a track guard are dead tonight as a result of the overturning of a Buick car in the Corona Road Race here today. Five spectators were injured, several seriously.

The race was won by Eddie O'Donnell, who completed the 301 miles in three hours, 29 minutes, 52 seconds. Joe Thomas was second with a time of three 3:36:05 and Eddie Pullan third with 3:39:35.25; Teddy Tezloff and R. C. Durant finished fourth and fifth respectively.

Burman died in the city hospital at Riverside, twelve miles away where he was taken from a temporary hospital. Mrs. Burman was with her husband soon after the accident and remained with him until he died.

As she stood beside him in the council chamber of the Corona City Hall, where Burman was taken after the accident, a woman who gave the police the name of Mrs. Mary Clark of Los Angeles came beside the cot.

When she left Mrs. Burman accused her of taking from the clothing of the injured driver a diamond pin valued at \$800.

A. C. Ramsey, chief of police reported Mrs. Clark searched. He ordered that two nurses found concealed under her corset the diamond pin which Mrs. Burman alleged was taken from her husband's clothing as he was near death. The woman was held, Ramsey said, pending the filing of a formal complaint.

The accident happened on the track in the 97th lap. A wheel flew off Burman's car and the machine crashed through the fence into the crowd. Schroeder was hurled eighty feet. Guard W. H. Speer, as struck by the catapulting car and instantly killed.

## OFFICERS RESTRAINED

Judge Fred Sutter, yesterday received word that Judge A. C. Lockwood of the Cochise county superior court, has made permanent the temporary restraining order, preventing the city officials of Douglas or Sheriff Wheeler from interfering with the performance, there, of "The Birth of a Nation."

Undoubtedly the action of the court, though not directed against local officers will have the same effect in Bisbee. The local council went on record several weeks ago and gave the mayor authority to stop the show in this city. The order from Judge Lockwood puts the matter out of the officers' hands.

## STORM MOVES WEST.

WASHINGTON, April 8.—Continued cold weather predicted by the Weather Bureau for Sunday and Monday over much of the country east of the Mississippi. More snow and rain was forecast for Sunday in New England, the middle and Atlantic states, the lake region and upper Ohio valley. Elsewhere in the east it was reported that the weather would be generally fair. Snow fell today to considerable depths over wide areas freezing temperature accompanied it as far south as the Middle Atlantic states. A storm tonight off the New Jersey coast moving northward brought storm warnings for the Atlantic coast from Delaware Breakwater to the Maine coast. Another storm centered in Ohio.

## DELEWARE PRIMARY HELD.

WILMINGTON, Del., April 8.—Returns of the Republican state primary held today to elect delegates to the state convention which will name six national delegates and six alternates, indicate that Edmund Mitchell, State Chairman of the party, had defeated Governor Ches. Miller for national delegate.

United States Senator Dupont was one of the national delegates. Outside the contest between Governor Miller and State Chairman Mitchell there was little interest in the primary. The delegates to the state convention are not instructed.

## LITTLE INFORMATION HAD AT HEADQUARTERS OF GENERAL FUNSTON

**Net Results of Three Weeks Campaign Has Been the Death of About 150 Villistas. Little Else Done.**

(By Review Leased Wire.)

SAN ANTONIO, April 8.—Gratification was expressed at General Funston's headquarters today when it was learned that Secretary Lansing and Secretary Baker had denied the government was contemplating the withdrawal of troops from Mexico. General Funston does not regard the task set him of breaking up "Villista" bands or bands as accomplished.

The net result of the three weeks' campaign against Villa is the killing of a few more than 150 of Villa's men and the extension of a line of American troops approximately 400 miles into Mexico. Villa's organization remains intact so far as army officers here know, he has divided it into smaller units and one of these was attacked and defeated at Guerrero but there is evidence that the chief, although possibly wounded and traveling on a stretcher, is yet retreating in a general way. Instead of anticipating an early withdrawal of the troops, General Funston has planned to stimulate the chase in every way possible and in order to do this has daily watched for advances from Washington that Carranza had at last made it possible to use without restraint at least one of the railroads extending south. Failure to get this permission and realization of the impracticability of maintaining the four hundred mile line from Columbus to the extreme front below Satero, caused Gen. Funston and his staff to consider seriously the establishment of a new base at some point on the border nearer the field of operations, perhaps Ojinaga, and from there the running south of a line of communication. Unofficially it was stated that such a change of base would be suggested to the War Department unless permission to use the railroad was granted.

Little of what might be transpiring south of Chihuahua was known at General Funston's headquarters tonight, but no uneasiness was displayed and increased confidence was manifested. Their confidence was not due altogether to the belief that the Americans would be able to overtake Villa, but to the cooperation of Carranza's forces who were reported officially by officers of the Mexican government to have occupied strategic positions in the path Villa was reported to be following. If the men Carranza has scattered through the territory in front of Villa check him, General Pershing's problem will be greatly aided.

Col. W. C. Brown, at the head of his troops, was known to be searching every trail and investigating every story as to the whereabouts of Villa or his force, and in the event of an engagement reinforcements can be forwarded without great loss of time. General Pershing is known to have maintained a compact military organization and the only regret at headquarters here has been the inability to supply his column from the American border.

Trailers were put in service in the auto trucks today in an effort to increase the volume of supplies demanded by Pershing's troops. Officers at General Funston's headquarters were greatly interested today in the report from Torreón that a conference was to be held tomorrow that might result in the capture of General Canuto Reyes, who has been leading the most formidable band of Villa's men in the vicinity of Torreón. Some apprehension has been felt that Villa might succeed in joining forces with Reyes, thus making much more difficult his capture.

## TOOK BULL DOG TO "MOVIES"; BURGARS WORK.

DENVER, April 8.—Burglars tonight robbed the home of A. B. Cole of \$850 in jewelry and money, according to reports to the police department. Mr. Cole was quoted as attributing his loss to the fact that he took his large bull dog, which he said he keeps to frighten away prowlers, to a moving picture show.

## HANDY HUSBAND

Knew How to Get Part of the Breakfast.

"I know one dish I can prepare for breakfast as well as any cook on earth," said my husband one morning when the cook was ill and he had volunteered to help get breakfast. He appeared with his dish and I discovered it was Grape-Nuts which, of course, was easy to prepare. It was perfectly cooked at the factory, but it was a good illustration of the convenience of having Grape-Nuts about.

"We took up Grape-Nuts immediately after our return from a five years' sojourn in a hot country. Our stomachs were in bad condition and we were in poor health generally."

"In a day or two we liked Grape-Nuts better than any other food we found on the table. We both gained steadily in health and strength, and this was caused by Grape-Nuts and Postum."

"A friend of ours had a similar experience. She was seriously ill with indigestion and could find nothing to eat that would not give her heartburn and palpitation, especially at night."

"She found that a small dish of Grape-Nuts with cream made her a satisfactory supper and gave her a comfortable night's rest. In a short time she gained several pounds in weight."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## WAR SUMMARY

(By Review Leased Wire.)

Persistent attempts by the Germans to reduce the salient in the French lines northwest of Verdun are resulting in steady progress of the operations. Attacks are being driven home on both sides of the salient, at the northern angle of which lies the village of Beaucourt but more particularly on the western edge of the village of Haucourt.

Berlin reports the capture of two strong points of support to the south of Haucourt, which passed recently into German hands, at either French position along a front of more than a mile and a quarter coming into Trier possession.

Paris has admitted German advances here, but declares that on the opposite side of the salient the advantage in the recent fighting has been with the French. The present German activity in the Verdun region is confined almost entirely to this operation although the artillery in other sectors around the fortress is being intermittently employed.

On the eastern front there have been no operations of major importance so far as the official reports show. The Russians apparently are limiting their activity at present for the most part in the Lake Narocz region, south of Dvinsk, and Berlin declares that such attacks as have been made there were along a narrow front and were easily repulsed.

Violent fighting is taking place on the Austro-Italian front, the Austrians being on the aggressive in several sectors and reporting considerable successes with the capture of numerous prisoners.

Three Austrian aeroplanes, which were part of a squadron which raided railway stations back of the hostile lines, failed to return to their base and apparently have fallen victim to the Italians.

Several additional ships have been sunk in the course of the German submarine campaign and Paris officially announces the sinking of an Austrian transport in the Adriatic by a French submarine.

## PROGRESSIVES ARE NAMED FOR CHICAGO

(Continued from Page 1)

zona, was of the same opinion as Captain Greenway and spoke along the same lines. As a consequence the motion was withdrawn.

Another resolution, offered by Chas. Thomas, of Cochise county, proposed that it was the sense of the convention that Theodore Roosevelt should be the next nominee and president of the United States. This precipitated another argument during which Mr. Heard offered the following letter as evidence that no such endorsement should be made by the convention:

"I have just sent a letter to the Secretary of the State of Michigan requesting the withdrawal of my name from the Republican and Progressive primaries. I am going to stand straight for what this country needs. I do not, for one moment, believe the country will turn to me, but I am absolutely certain that it will have to turn to the principles I am advocating and that is the vitally important question."

"Sincerely yours,

"T. ROOSEVELT."

It was then explained by the sponsor of the resolution that it was not intended as binding on the delegates and merely an expression of esteem for Colonel Roosevelt. Thomas added that it certainly was the sense of the convention in putting the motion it was unanimously carried.

Regarding resolutions of the convention a considerable debate arose, and finally resulted in the adoption of a verbal platform, offered by H. B. Wilkinson, of Phoenix. It was unanimously adopted by the convention by a standing vote of all the delegates. The resolution is as follows:

"I move you that it is the sense of this convention of Progressives, in the state of Arizona, assembled, that we are heartily in favor of Americanism, Preparedness and efficiency."

After the adoption of a vote of thanks to the presiding officers, to the Progressives of Elabe and Cochise county and the singing of a "hot time" the convention adjourned sine die.

## CHILD PERFORMERS BURNED TO DEATH

(By Review Leased Wire.)

LONDON, April 9.—Five child performers were burned to death on the stage of the Garrick Theatre at Herford Friday night. It was a children's entertainment to provide comforts for the soldiers. The curtain fell on the final scene and the audience was departing when the cry of fire was raised. A panic ensued.

Many in the audience were crushed but none seriously injured. The fire was confined to the stage where the performers were wearing dresses covered with cotton wool for a mass scene. The flames spread furiously and the children ran frantically about the stage with their garments on fire.

In addition to those burned to death, several were seriously injured and are now in a hospital reported to be in a critical condition.

## VIRGINIA PROGRESSIVES MEET.

RICHMOND, Va., April 8.—The executive committee of the Progressive party of Virginia tonight endorsed Theodore Roosevelt for president. Some members of the committee said they were willing to amalgamate with the Republican party if the Republicans would name Roosevelt for president.

"If the Republican party fails to nominate Roosevelt, it will face the worst defeat it ever experienced," said Percy S. Stephenson, the Progressive state chairman.

## GENERALS AND TROOPS WORKING FOR VILLA'S DESTRUCTION

American troops in Mexico; General Funston.

Here are the forces that are working in unison to hunt and punish the bandit Villa. General Obregon, who recently lost an arm in battle, is Carranza's secretary of war. He is co-operating with General Funston, in charge of the American border forces. The American troops shown in the picture are receiving substantial help from Carranza's scouts, who are acting as guides in the difficult Mexican country.

## PADEREWSKI PLEADS FOR POLISH RELIEF

**Famous Pianist Asks American People to Aid Those in Starving Europe.**

(By Review Leased Wire.)

NEW YORK, April 8.—Ignaz Jan Paderewski, the pianist and composer, who is at the head of the Polish War Relief Fund, declared in a statement here today, in regard to efforts for the collection of money for Polish sufferers, that they "are more of a political than a humanitarian nature." Some persons had expressed doubt, he said, as to the use of sending funds to a country where "no more food can be obtained until prices drop." Others objected on the ground "that nothing could reach the victims, everything being taken by the visitors."

Paderewski pointed out that the British were aiding the Belgian population under German control and that the French also were alleviating the suffering of their people in northern France and asked if it were reasonable to suppose they would do this "if there is any risk of confiscation of provisions" by the German military authorities. He admitted that food was held at an almost prohibitive price in Poland, but said "the question is whether we ought to save those numerous endangered lives or wait until the prices go down."

Poland is asking for charity, he said and not for political advice. "The public," said Paderewski, "ought to bear in mind that the needs of the population are not confined to food, but owing to the destruction of some twenty thousand villages, some shelter for the inhabitants must be provided, for which purpose large sums of money are required."

## FRENCH VESSEL SUNK.

LONDON, April 8.—Lloyd announced that the French fishing vessel Sainte Marie has been sunk. The crew was landed.

## SONORA SOLDIERS' MOVES COMPLETED

**Americans Arriving on Border from Interior Say About 6,000 Men Are Being Mobilized.**

(By Review Leased Wire.)

DOUGLAS, April 8.—Americans arriving from Sonora today, said that the troop movement eastward from Fronteras, 29 miles south of Douglas toward the Chihuahua border, has been practically completed by the defection of Mexican troops. Today there remained in Fronteras less than one hundred men as a garrison.

The rest are around Colonia Morelos to which point 1800 cavalry went from Fronteras during the week.

More than 2000 infantry troops, previously stationed in that locality, and reported officially from time to time by Agua Prieta officials and the local Mexican consul, increase the total of known available defection forces along the Sonora river, near Chihuahua mountain passes to approximately 6000. Rumors that the cavalry had left Colonia Morelos going eastward through Pulpito and Carreta Passes were carried here today, but could not be confirmed.

G. W. Dillard, secretary of the Douglas rifle club, received a telegram from George G. Roskrue, secretary of the Arizona Rifle Association, that the state match, which was scheduled to begin April 14, had been postponed until October 1. Mr. Roskrue stated the uncertainty of the Mexican situation had led to this difference.

## MEXICAN LOAN PROBABLE

NEW YORK, April 8.—Dr. Alfred O. Caturegli, financial agent and general counsel here, for the defacto government of Mexico, announced today that arrangements had virtually been completed to extend \$75,000,000 credit to the Mexican government.

## OATMAN-BELMONT IS GUIDED BY M'SWAIN

**Former Bisbee Man at Head of Promising Oatman Property.**

(Continued from Page One.)

OATMAN, April 8.—The Oatman Belmont Mining company has completed plans for a road to its property, which lies to the east of the Black Range and has one of the largest outcrops in the district.

Values on the surface average \$5 per ton and good ore is expected to be encountered at a depth of 100 feet. Some of the most prominent men in the district are connected with the property and several well known Nevadans are heavily interested.

None of the stock has as yet been offered to the public as it is the plan of the company to have development work under way before stock is sold. The well known mining investment firm of Weber & Co. here will handle the stock.

The sinking of the shaft and the development work will be supervised by J. A. McSwain, a well known and experienced mining man, formerly connected with the Copper Queen of Bisbee. Mrs. McSwain will take the opportunity which her husband is engaged in his early rush work at the mine to make an extended visit in the East. She will visit several of the larger cities and after a sojourn in Boston will return to Oatman in about three months.

## WITHDRAWAL OF THE FORCE UNTHOUGHT OF

(Continued from Page One.)

It is thought possible that this handful of his old guards may show one real fight in Villa's defense if their leader stays with them until the Americans overtake them.

April 23rd is
